CONTENTS — VOLUME 16

Number 1

Special Issue: The Myelodysplastic Syndrome

Editorial 1 *P. Reizenstein*

Introduction 3 *P. Reizenstein and Å. Öst*

Diagnosis

Morphologic classification of the myelodysplastic syndromes (MDS): combined utilization of bone marrow aspirates and trephine biopsies 15 *R. Bartl, B. Frisch and R. Baumgart*

Chromosomal deletions in the myelodysplastic syndrome 35 *G. J. Mufti*

Cytogenetic findings in primary and secondary MDS 43 *S. Heim*

Gene mutations in myelodysplasia 47 *A. Jacobs*

Myelodysplastic syndromes (MDS) and acute myeloid leukemias (AML) with myelofibrosis 51 *M. Imbert, D. Nguyen and C. Sultan*

Epidemiology, Etiology and Pathogenesis

The "n – 1" model for myelodysplastic syndromes 57 *L. Luzzatto, F. Colonna and I. Reilly*

Radiotherapy- and chemotherapy-induced myelodysplasia and acute myeloid leukemia. A review 61 *J. Pedersen-Bjergaard*

Exposure to organic solvents and risk of haematological malignancies 67 *L. Brandt*

Bone marrow dysfunctions preceding acute leukemia in children: a clinical study 71 *R. Wegelius*

Prognostic factors in myelodysplastic syndromes 77 *G. F. Sanz and M. A. Sanz*

Treatment

Clinical features of MDS 89 *T. Hamblin*

Therapeutic aspects of myelodysplastic syndromes in chronic phase 95 *R. Hast and E. Hellström*

The treatment of acute myeloid leukaemia preceded by the myelodysplastic syndrome 101 *T. Hamblin*

Prognostic factors in the myelodysplastic syndromes 109 *G. J. Tricot*

Complications and treatment of the myelodysplastic syndromes 117 *G. J. Tricot*

Number 2

Original Articles

A hematological remission by clonal hematopoiesis after treatment with recombinant human granulocyte–macrophage colony-stimulating factor and erythropoietin in a patient with therapy-related myelodysplastic syndrome 123 *M. Bessho, Y. Itoh, S. Kataumi, N. Kawai, A. Matsuda, I. Jinnai, M. Saitoh, K. Hirashima and M. Minamihisamatsu*

Does chemotherapy of hematological malignancies affect DNA fingerprint pattern? 133 *P. Helminen*

Characterization of growth inhibitory factors for mouse monocytic leukemia cells 139 *T. Kasukabe, J. Okabe-Kado, Y. Honma, M. Hozumi, T. Matsuda and T. Hirano*

A role for protein kinase C in the growth of human erythroid progenitor cells 145 *N. Katayama, M. Nishikawa, N. Shimizu, F. Komada, T. Sekine, N. Minami and S. Shirakawa*

A differential sensitivity to recombinant human interferon-alpha 2a between normal and chronic myeloid leukaemic peripheral blood granulocyte–macrophage colony-forming units — 153 *S. Gronthos, L. B. To, D. N. Haylock and C. A. Juttner*

A pilot study of carboplatin augmentation therapy for patients with poor risk acute non-lymphocytic leukemia — 159 *A. M. Benger, G. P. Browman, I. R. Walker, R. M. Meyer, W. E. C. Wilson and J. A. McBride*

The clinical relevance of IgG subclasses in acute leukemias: low serum IgG as a risk factor for early death due to infection in acute myelogenous leukemia — 165 *A. Gause, G. Schmitz, A.-K. von Kalle, B. Lathan, V. Diehl and M. Pfreundschuh*

High production of catalase in hydrogen peroxide-resistant human leukemia HL-60 cell lines — 173 *I. Kasugai and M. Yamada*

Morphologic immunophenotypic and cytogenetic patterns of adult acute myeloid leukemia in Saudi Arabia — 181 *G. T. Roberts, D. G. Spence, M. A. Padmos, K. V. Sheth, H. Clink and P. Ernst*

Surface immunoglobulin density in the differential diagnosis of B-cell chronic lymphocytic leukemia and leukemic immunocytoma — 191 *C. Ludescher, C. Gattringer, A. R. Weger, J. Drach, J. Thaler, R. Bitschmann and H. Huber*

Neoplastic basophil/mast cell precursors from chronic myelogenous leukemia display heterogeneous responses for a hematopoietic factor — 197 *T. Fukuda, T. Kakihara, Y. Ohnishi, K. Kishi, A. Shibata and A. Abe*

205 Announcements

Number 3

Review

The role of low-dose chemotherapy in myelodysplastic syndromes — 207 *C. Aul and N. Gattermann*

Original Articles

A new myeloblastic leukemia cell line with double minute chromosomes. Induction of methotrexate resistance and dihydrofolate reductase gene amplification — 217 *H. Saito, K. Kishi, M. Narita, T. Furukawa, E. Nagura, T. Maekawa, T. Abe and A. Shibata*

Surface expression of the α_2-macroglobulin receptor on human malignant blood cells — 227 *S. K. Moestrup and P. Hokland*

Differential phosphorylation—cause for defective internalization of aggregated IgG by chronic myeloid leukemic granulocytes? — 235 *H. Desai, S. Zingde, S. Advani and B. Gothoskar*

Lack of a role of interleukin 11 in the growth of multiple myeloma — 247 *S. R. Paul, B. A. Barut, F. Bennett, M. A. Cochran and K. C. Anderson*

Cellular protein profiles of the Hodgkin's disease cell lines L428, KM-H2 and HDLM-2: a comparative study — 253 *B. D. Hock and D. N. J. Hart*

Heterogeneous expression of c-*myb* protein in human leukemia detected by simultaneous two color flow cytometric analysis — 265 *H. Tesch, M. Michels, M. Jücker, I. Pahl, S. Klein, H. Bading, K. Moelling and V. Diehl*

On the biochemical modulation of 6-mercaptopurine by methotrexate in murine WEHI-3b leukemia cells *in vitro* — 275 *J. Liliemark, B. Pettersson and C. Peterson*

Stimulatory effect of tumor necrosis factor-α on the growth of CMK, a human megakaryoblastic leukemia cell line — 281 *K. Miura, M. Teramura, S. Hoshino, H. Mizoguchi and T. Sato*

Cytotoxicity of interleukin 2-induced lymphokine-activated killer (LAK) cells against human leukemia and augmentation of killing by interferons and tumor necrosis factor — 287 *J. V. Teichmann, W.-D. Ludwig and E. Thiel*

in situ cell cycle kinetics in bone marrow biopsies following sequential infusions of IUdR/BrdU in patients with hematopoietic malignancies — 299 *A. Raza, N. Yousuf, S. A. J. Bohkari, Y. Sheikh, S. Akhtar, S. Chughtai, A. Umerani, S. A. Mehdi, M. A. Miller, M. Masterson and B. Lampkin*

Expression of the neural cell adhesion molecule (NCAM) on the haemopoietic cell line NALM-16 — 307 *K. Patel, G. Frost, R. Rossell, B. Pizer, A. Gee, T. Sugimoto, E. Phimister and J. Kemshead*

Changes in IgG Fc receptor expression induced by phorbol 12-myristate 13-acetate treatment of THP-1 monocytic leukemia cells — 317 *J. Auwerx, B. Staels, F. Van Vaeck and J. L. Ceuppens*

Letter to the Editors

Allergic reaction to chlorambucil in chronic lymphocytic leukaemia: case report — 329 *J. Zervas, Ch. Karkantaris, E. Kapiri, S. Theocharis and K. Konstantopoulos*

331 Announcement

Number 4

Review

Is the primary event in radiation-induced chronic myelogenous leukemia the induction of the t(9;22) translocation? — 333 *M. Holmberg*†

Original Articles

Tumor necrosis factor, but not other hematopoietic growth factors, prolongs the survival of hairy cell leukemia cells — 337 *J. H. Schiller, G. Bittner and D. R. Spriggs*

The anti-leukaemic effects and the mechanism of sodium selenite — 347 *Xu-Rong Jiang, M. G. Macey, Hui-Xian Lin and A. C. Newland*

Changes in the phosphorylation status of a 19 kD cytosolic protein are linked to the growth arrest of HL-60 cells — 353 *N. A. Jones, J. M. Lord and G. Brown*

Myeloid differentiation of HL-60 cells induced by antitumor drug 3-nitrobenzothiazolo[3,2-a]quinolinium — 363 *A. Baez and J. Sepulveda*

Analysis of clonality at the level of progenitors in chronic myelogenous leukaemia using the polymerase chain reaction — 371 *S. Sadamura, T. Umemura, H. Takahira, J. Hirata, J. Nishimura and H. Nawata*

T-cell receptor γ/δ expressing acute leukemia emerging from sideroblastic anemia: morphological, immunological, and cytogenetic features — 379 *G. Meckenstock, Ch. Fonatsch, A. Heyll, E. M. Schneider, G. Kögler, D. Söhngen, C. Aul and W. Schneider*

Fibroblastoid cells derived from rat bone marrow and lung differ in their pattern of production of hemopoietic stimulators and inhibitors — 385 *H. Wang and A. K. Sullivan*

Fluid pinocytosis and esterase–oxidase in chronic myeloid leukemic granulocytes are differentially stimulated by chemotactic peptide — 395 *N. R. Naik, S. H. Advani and A. N. Bhisey*

Induction of the *fms* proto-oncogene product in HL-60 cells by vitamin D: a flow cytometric analysis — 403 *P. T. Rowley, B. Farley, R. Giuliano, S. LaBella and J. F. Leary*

Case Reports

Isolated optic nerve involvement in chronic myeloid leukemia — 411 *C. Costagliola, M. Rinaldi, L. Cotticelli, S. Sbordone and G. Nastri*

Syngeneic marrow transplantation in multiple myeloma — 415 *D. Topolsky, P. Crilley, N. Leasure, S. Bulova and I. Brodsky*

Effect of combination chemotherapy with cefoperazone on non-Hodgkin's lymphoma — 417 *T. Natazuka, T. Matsui, M. Ito, T. Sugimoto, Y. Nakao and T. Fujita*

Letter to the Editors

Synergism between interferon-alpha and carboplatin in inhibiting K562 human myeloid leukaemia clonogenic cells: new potential therapeutic development — 419 *H. T. Hassan and H. R. Maurer*

421 Announcement

Number 5

Editorial

In vitro culture of hematopoietic progenitors in the diagnosis of blood disorders — 423 *T. Ruutu*

Original Articles

Functional significance of induction of differentiation in human myeloid leukaemic blasts by 1,25-dihydroxyvitamin D3 and GM-CSF — 427 *S. M. Kelsey, H. L. J. Makin and A. C. Newland*

Phenotypic diversity and prognosis of adult T-cell leukemia — 435 *S. Kamihira, H. Sohda, S. Atogami, K. Toriya, Y. Yamada, K. Tsukazaki, S. Momita, S. Ikeda, M. Kusano, T. Amagasaki, K.-i. Kinoshita and M. Tomonaga*

Monocytic differentiation induction of HL-60 cells by MC 903, a novel vitamin D analogue — 443 *V. I. Rebel, G. J. Ossenkoppele, A. A. van de Loosdrecht, P. W. Wijermans, R. H. J. Beelen and M. M. A. C. Langenhuijsen*

Pyrene butanol—an efficient, selective and non-metabolized photosensitizing agent for human myeloid leukemia cells — 453 *E. Fibach, S. Abu Rabia and S. Gatt*

Heterogeneity of acquired idiopathic sideroblastic anaemia (AISA) — 463 *R. Garand, J. Gardais, M. Bizet, J.-L. Bremond, F. Accard, M.-P. Callat, E. Tron. de Bouĉhony and J.-E. Goasguen*

VLA molecule expression may be involved in the release of acute myeloid leukaemic cells from the bone marrow — 469 *I. A. M. Denkers, T. J. M. de Jong-de Boer, R. H. J. Beelen, G. J. Ossenkoppele and M. M. A. C. Langenhuijsen*

Argininosuccinate synthetase gene expression in leukemias: potential diagnostic marker for blastic crisis of chronic myelocytic leukemia — 475 *T. Ohno, Y. Kimura, K. Sakurada, K. Sugimura, T. Fujiyoshi, T. Saheki, S. Sonoda and I. Azuma*

Analysis of mutations in the G_s protein α subunit gene in human leukaemia — 485 *B. W. Baker and J. D. Norton*

The linking of anticancer drugs, cell cycle blocks, and differentiation: implications in the search for antineoplastic drugs — 491 *R. D. Dinnen and K. Ebisuzaki*

The combination of quercetin and cytosine arabinoside synergistically inhibits leukemic cell growth — 497 *L. Teofili, L. Pierelli, M. S. Iovino, G. Leone, G. Scambia, R. de Vincenzo, P. Benedetti-Panici, G. Menichella, E. Macri', M. Piantelli, F. O. Ranelletti and L. M. Larocca*

Immunocytochemical investigation of normal and chronic lymphocytic leukaemia lymphocytes reveals unexpectedly frequent reactivity with some myelomonocytic associated antibodies — 505 *S. Woessner, L. Florensa, C. Besses, RM[a] Vilà, C. Gallés, L. Palou and J. Sans Sabrafen*

Predicting remission outcome in acute non-lymphocytic leukemia: general principles and their application to residual marrow leukemia — 511 *G. P. Browman and H. D. Preisler*

Emergence of myeloid stem cell line from T-lymphoid blastic phase of chronic myeloid leukemia in culture — 521 *A. N. Mohamed, M. R. Smith, A. Al-Katib and S. R. Wolman*

In vitro suspension culture reactions to 1,25 dihydroxyvitamin D3 in relation to bone marrow morphology and prognosis in patients with myelodysplastic syndromes — 529 *E. Hellström-Lindberg, K.-H. Robèrt, B. Åhnsén, A. Elmhorn-Rosenborg, Y. Kock and Å. Öst*

Case Report

Four additional cases of trisomy 14 as the sole anomaly in various haematological malignancies — 537 *A. Brizard, F. Guilhot, P. Babin, C. Burucoa, J. Tanzer and J. L. Huret*

Short Report

Rare point mutation at codon 301 and 969 of *FMS*/M-CSF receptor in acute myelomonocytic and monocytic leukemia — 541 *T. Natazuka, T. Matsui, M. Ito, H. Nakata, T. Nakagawa, H. Nakamura, T. Masaoka, T. Isobe and Y. Nakao*

Letters to the Editors

Transient abnormal myelopoiesis in Down's Syndrome—are some of them truly leukaemic? — 545 *K. Ghosh*

Inversion of chromosome 3(q21;q26) in a case of secondary acute leukaemia with thrombocythaemia — 547 *J. Gardais and L. Baranger*

Sensitivity of flow cytometry — 549 *H. Zola*

Number 6/7

Review

Regulation of hematopoietic cell function by protein tyrosine kinase-encoding oncogenes, a review — 551 *C. J. A. Punt*

Original Articles

Reciprocal alterations of GMP reductase and IMP dehydrogenase activities during differentiation in HL-60 leukemia cells — 561 *H. Nakamura, Y. Natsumeda, M. Nagai, J. Takahara, S. Irino and G. Weber*

Enzyme studies of methotrexate-resistant human leukemic cell (K562) subclones — 565 *S. Koizumi and C. J. Allegra*

Synergistic induction of the differentiation of WEHI-3B D^+ myelomonocytic leukemia cells by retinoic acid and granulocyte colony-stimulating factor — 571 *J. Li and A. C. Sartorelli*

Intensive sequential post-induction therapy for adults with acute myelogenous leukemia in first remission: long-term follow-up and results — 577 *T. Ino, H. Kojima, H. Miyazaki, F. Maruyama, R. Sobue, M. Okamoto, T. Matsui, K. Shimizu, K. Ezaki and M. Hirano*

Increased serum interleukin 6 levels in patients with myelodysplastic syndromes — 585 *M. Herold, F. Schmalzl and H. Zwierzina*

Binding of monoclonal anti-interleukin 2 antibody to nucleoli in acute leukemia blast cells — 589 *M. Schwonzen, M. Pfreundschuh, C. Pohl, A. Schuh, B. Lathan and V. Diehl*

High constitutive expression of heat shock protein 90α in human acute leukemia cells — 597 *Y. Yufu, J. Nishimura and H. Nawata*

Serum levels of helper factors (IL-1α, IL-1β and IL-6), T-cell products (sCD4 and sCD8), sIL-2R and β_2-microglobulin in patients with B-CLL and benign B lymphocytosis — 607 *M. Aguilar-Santelises, A. Loftenius, C. Ljungh, S. B. Svenson, B. Andersson, H. Mellstedt and M. Jondal*

The effect of high-dose methylprednisolone treatment on GM-CSF level in children with acute leukemia: a pilot study — 615 *A. Murat Tuncer, G. Hicsonmez, G. Erturk, F. Gumruk, D. Albayrak and H. Oguz*

Is cigarette smoking a risk factor for non-Hodgkin's lymphoma or multiple myeloma? Results from the Lutheran Brotherhood Cohort Study — 621 *M. S. Linet, J. K. McLaughlin, A. W. Hsing, S. Wacholder, H. T. Co Chien, L. M. Schuman, E. Bjelke and W. J. Blot*

Induction of CD13 expression on fresh myeloid leukaemia: correlation of CD13 expression with Amino-peptidase-N activity — 625 *K. Razak and A. C. Newland*

The cytotoxic effects of 5-OH-1,4-naphthoquinone and 5,8-diOH-1,4-naphthoquinone on doxorubicin-resistant human leukemia cells (HL-60) — 631 *J. Segura-Aguilar, K. Jönsson, U. Tidefelt and C. Paul*

Flow cytochemical analysis of peripheral lymphocytes in chronic B-lymphocytic leukemia. Prognostic role of the blast count determined by the H*1 system and its correlation with morphologic features — 639 *F. Lanza, S. Moretti, A. Latorraca, G. Scapoli, F. Rigolin and G. Castoldi*

Intranuclear concentration measurements of doxorubicin in living leucocytes from patients treated for a lymphoproliferative disorder — 647 *H. Morjani, B. Pignon, J.-M. Millot, V. Debal, D. Lamiable, G. Potron, J.-C. Etienne and M. Manfait*

Characterization of two novel pre-B-cell lines (LK63 and LiLa-1): potential models of pre-B-cell differentiation — 655 *E. Salvaris, J. R. Novotny, K. Welch, L. Campbell and A. W. Boyd*

Myeloblastoma formation in acute myeloid leukemia — 665 *Y. Iizuka, M. Aiso, K. Oshimi, M. Kanemaru, M. Kawamura, J. Takeuchi, A. Horikoshi, T. Ohshima, H. Mizoguchi and T. Horie*

Susceptibility of acute myelogenous leukemia blasts to lysis by lymphokine-activated killer (LAK) cells and its clinical relevance — 673 *E. Archimbaud, X. Thomas, L. Campos, D. Fiere and J.-F. Doré*

Molecular analysis of an ataxia telangiectasia T-cell clone with a chromosomal translocation t(14;18)—evidence for a breakpoint in the T-cell receptor δ-chain gene — 681 *M. Uppenkamp, I. G. Dresen, R. Becher, M. Raffeld and P. Meusers*

Effects of a fibroblast-derived inhibitor on the growth of normal marrow and leukemic clonogenic cells — 693 *H. Wang and A. K. Sullivan*

Effects of human interleukin 3, macrophage and granulocyte–macrophage colony-stimulating factor on monocyte function following autologous bone marrow transplantation — 703 *I. Fabian, E. Shapira, M. Gadish, Y. Kletter, A. Nagler, O. Flidel and S. Slavin*

Case Report

A patient with monosomy 7 and polyuria — 711 *S. Sadullah, A. R. Kruger, S. Barrington Onslow, M. Armitage and D. G. Oscier*

Meeting Report

5th International Workshop on Chronic Lymphocytic Leukemia — 717 *E. Montserrat, J. L. Binet, D. Catovsky, G. Dighiero, R. P. Gale, K. R. Rai and C. Rozman*

Letters to the Editors

Enhanced NK activity during blast crisis in chronic myelogenous leukemia (CML) — 721 *V. Delwail, A. Meseri, A. Brizard, J.-C. Lecron, A. Sadoun, F. Costerousse, F. Guilhot, J. Tanzer and P. Goube de Laforest*

Macrophage colony-stimulating factor production in leukemic cell lines compared to normal T cells — 723 *R. Costello and F. Duffaud*

Can dipyridamole or verapamil slow regrowth of leukaemia cells? — 725 *Ø. Bruserud*

Isochromosome 11q in acute erythroblastic leukemia — 727 *A. Aventin*

Book Reviews

New Approaches to the Treatment of Leukemia — 729 *O. Vikrot*

Epidemiology and Biology of Multiple Myeloma — 729 *A. Österborg*

Number 8

Obituary

Professor Claude Sultan — 731 *S. M. Lewis*

Editorial

Acute lymphoid leukemia with t(4;11)(q21;q23) following chemotherapy with cytostatic agents targeting at DNA-topoisomerase II — 733 *J. Pedersen-Bjergaard*

Original Articles

A practical miniature long-term bone marrow culture system for investigating early myelodysplasia — 737 *I. A. G. Roberts and M. F. McMullin*

Early disappearance of murine plasmocytoma stem cells in long-term bone marrow culture — 743 *C. Tarella, P. Omede', M. Boccadoro, A. Palumbo, S. Battaglio and A. Pileri*

Interleukin 6 induces myeloid differentiation of a human biphenotypic leukemic cell line — 751 *A. Cohen, D. Petsche, T. Grunberger and M. H. Freedman*

Gene introduction into granulocyte–macrophage progenitor cells by electroporation: the relationship between introduction efficiency and the proportion of cells in S-phase — 761 *M. Takahashi, T. Furukawa, I. Tanaka, K. Nikkuni, A. Aoki, K. Kishi, T. Koike, Y. Moriyama and A. Shibata*

TNFα therapy activates human B-lymphoma cells *in vivo* and may protect myelopoiesis — 769 *B. Heilig, M. Mapara, R. Bargou, C. Fiehn and B. Dörken*

Clinical features of long-term survivors of refractory myelodysplastic anemias. A Japanese cooperative study — 775 *Y. Yoshida, S. Oguma, H. Uchino, T. Maekawa and T. Nomura*

Induction of apoptosis in $CD4^+$ prolymphocytic leukemia by deoxyadenosine and 2'-deoxycoformycin — 781 *J. B. Johnston, K. Lee, L. Verburg, J. Blondal, M. R. A. Mowat, L. G. Israels and A. Begleiter*

Morphologic, immunologic and cytogenetic studies in acute myeloid leukemia following occupational exposure to pesticides and organic solvents — 789 *A. Cuneo, F. Fagioli, I. Pazzi, A. Tallarico, R. Previati, N. Piva, M. G. Carli, M. Balboni and G. Castoldi*

Oligoclonality of Moloney leukemias — 797 *R. Ofir, J. Gopas, E. Aflalo and Y. Weinstein*

Influence of antibodies against IGF-I, insulin or their receptors on proliferation of human acute lymphoblastic leukemia cell lines — 807 *T. G. Baier, E. W. Jenne, W. Blum, D. Schönberg and K. K. P. Hartmann*

Treatment of mycoplasma-contaminated continuous cell lines with mycoplasma removal agent (MRA) — 815 *S. M. Gignac, C. C. Uphoff, R. A. F. MacLeod, K. Steube, M. Voges and H. G. Drexler*

Effects of lithium on dimethyl sulfoxide induced differentiation of HL-60 promyelocytic leukemia cells — 823 *R. W. Becker and E. M. Tyobeka*

Immunocytochemical detection of Factor XIII A—subunit in acute leukemia — 829 *R. Invernizzi, P. De Fazio, A. M. Iannone, L. M. Zambelli, M. P. Rastaldi, G. Ippoliti and E. Ascari*

Original Articles

Role of interleukin 6 in the growth of myeloma-derived cell lines — 951 *B. A. Barut, L. I. Zon, M. K. Cochran, S. R. Paul, D. Chauhan, A. Mohrbacher, J. Fingeroth and K. C. Anderson*

Epidemiology of acute leukaemia in the Cape Province of South Africa — 961 *G. M. Sayers, M. R. Rip, P. Jacobs, J. M. L. Klopper, C. D. Karabus, W. J. Rosenstrauch, P. B. Hesseling, M. Hoffman and R. Sayed*

Effects of interleukin 2 on engraftment following autologous bone marrow transplantation (ABMT) in dogs — 967 *S. Samuel, A. Nagler, R. Or and S. Slavin*

In vitro purging of clonogenic leukemic cells from human bone marrow by heat: simulation experiments for autologous bone marrow transplantation — 973 *Y. Moriyama, S. Hashimoto, T. Goto, T. Furukawa, K. Kishi, M. Takahashi and A. Shibata*

Alcohol consumption and risk of leukemia, non-Hodgkin's lymphoma, and multiple myeloma — 979 *L. Morris Brown, R. Gibson, L. F. Burmeister, L. M. Schuman, G. D. Everett and A. Blair*

Influence of high versus low intestinal concentration of Gram-negative bacteria and endotoxin on the susceptibility of murine myelopoiesis in bone marrow and spleen to cytostatic treatment with Ara-C — 985 *S. Daenen, H. Goris, F. de Boer, M. Ruud Halie and D. van der Waaij*

Rapid production of diversity during the progression of a mixed lineage leukaemia — 993 *T. Stankovic, P. Darbyshire, J. R. Mann, M. Pomfret and A. M. R. Taylor*

c-*myc* and c-*myb* expression in acute myelogenous leukemia — 1003 *V. Gopal, B. Hulette, Ya Qin Li, R. Kuvelkar, A. Raza, R. Larson, J. Goldberg, G. Tricot, J. Bennett and H. Preisler*

Transfer of human chronic lymphocytic leukemia to mice with severe combined immune deficiency — 1013 *R. Kobayashi, G. Picchio, M. Kirven, G. Meisenholder, S. Baird, D. A. Carson, D. E. Mosier and T. J. Kipps*

Prolongation by differentiation-stimulating factor/leukemia inhibitory factor of the survival time of mice implanted with mouse myeloid leukemia cells — 1025 *Y. Yamamoto-Yamaguchi, M. Tomida and M. Hozumi*

Use of the polymerase chain reaction to detect hypermethylation in the calcitonin gene. A new, sensitive approach to monitor tumor cells in acute myelogenous leukemia — 1031 *T. Fukuhara, W. Craig Hooper, S. B. Baylin, J. Benson, J. Pruckler, A. C. Olson, B. L. Evatt and W. R. Vogler*

Bleeding complications and coagulopathy in acute leukaemia — 1041 *E. Törnebohm, M. Blombäck, D. Lockner, N. Egberg and C. Paul*

Case Report

Recombinant human granulocyte colony-stimulating factor enhanced cytotoxicity of Ara-C in Ara-C-resistant leukemic cells from a patient with biphenotypic leukemia in cell kinetic quiescence — 1049 *M. Higashigawa, Y. Komada, N. Washio, H. Kuwabara, H. Hori, M. Ido and M. Sakurai*

Letter to the Editors

Successful treatment of two cases of myelodysplastic syndrome coexistent with chronic lymphocytic leukaemia with lymphoblastoid interferon — 1055 *M. Tambone-Reyes, P. Di Marco, D. Tinnirello, S. Grisanti and P. Citarrella*

Number 11

Editorial

The dioxopiperazine derivatives, their leukemogenic potential and other biological effects — 1057 *J. Pedersen-Bjergaard*

Review

Interactions between retroviruses and environmental carcinogens and their role in animal and human leukemogenesis — 1061 *M. Aboud, M. Rosner, A. Dombrovsky, T. Revazova, G. Feldman, L. Tolpolar, Y. Strilitz-Hassan and R. M. Flügel*

Original Articles

Relationship of the type of *bcr–abl* hybrid mRNA to clinical course and transforming activity in Philadelphia-positive chronic myelogenous leukemia — 1071 *M. Futaki, K. Inokuchi, H. Matsuoka, K. Miyake, K. Dan and T. Nomura*

Unexpected cytokinetic effects induced by puromycin include a G_2-arrest, a metaphase-mitotic-arrest, and apoptosis — 1077 *A. N. Davidoff and B. V. Mendelow*

Immunological studies of $\gamma\delta$ T cells in a case of large granular lymphocyte (LGL) leukemia: leukemic $\gamma\delta^+$ T cells are resistant to growth stimulation *in vitro* but respond to interferon-α treatment *in vivo* — 1087 *R. Metzger, B. Heckl-Östreicher, C. Nerl, S. Schondelmaier and D. Kabelitz*

Modification of the DiSC assay by the incorporation of monoclonal antibody staining — 1097 *D. L. Kirkpatrick, L. Chen and T. S. Goh*

Structural alterations of the *p53* gene in human leukemias — 1105 *H. Miwa, K. Kita, H. Saya, A. Otsuji, M. Masuya, K. Nishii, N. Morita, N. Takakura, K. Ohishi, K. Nasu, K. Nakase and S. Shirakawa*

Specific chromosomal translocations and therapy-related leukemia induced by bimolane therapy for psoriasis — 1113 *Yongquan Xue, Daru Lu, Yu Guo and Baojue Lin*

Case Report

HTLV-related markers in a Hungarian patient with adult T-cell leukemia — 1125 *J. Kiss, B. Telek, F. D. Tóth, L. Rejtő, P. Surányi and K. Rák*

Book Reviews

New Approaches to the Treatment of Leukemia — 1133 *T. J. Hamblin*

The Chromosomes in Human Cancer and Leukaemia — 1133 *T. J. Hamblin*

Advances in Chronic Lymphocytic Leukemia. Proceedings from the 5th International Workshop on Chronic Lymphocytic Leukemia — 1133 *T. J. Hamblin*

Atlas of Clinical Hematology — 1133 *P. Reizenstein*

1135 Announcements

1137 Corrigendum

Number 12

Editorial

Definition of relapse in acute myeloid leukaemia — 1139 *J. A. Copplestone and A. G. Prentice*

Review

Strategies in the treatment of acute myelogenous leukemia — 1141 *W. R. Vogler*

Original Articles

Phenotypic and genotypic characterization of 14 leukemia and lymphoma cell lines with 11q23 translocations — 1155 *S. Iida, M. Saito, T. Okazaki, M. Seto, K. Yamamoto, Y. Akao, M. Ogura, H. Suzuki, Y. Ariyoshi, K. Koike, M. Nitta, T. Takahashi, R. Ueda and S. Nakazawa*

The MTT cell viability assay for cytotoxicity testing in multidrug-resistant human leukemic cells — 1165 *D. C. Marks, L. Belov, M. W. Davey, R. A. Davey and A. D. Kidman*

Differential macrophage-mediated cytotoxicity to P388 leukemia cells and its drug-resistant cells examined by a new MTT assay — 1175 *Huaiyuan Jiao, Y. Soejima, Y. Ohe, K. Miura, T. Tamura and N. Saijo*

Endogenous serum levels and surface receptor expression of GM-CSF and IL-3 in patients with myelodysplastic syndromes — 1181 *H. Zwierzina, S. Schöllenberger, M. Herold, F. Schmalzl and J. Besemer*

Acute myelocytic leukemia associated with thrombocytosis and inv 3(q21.3;q26.2) in a case of Grönbland–Strandberg syndrome — 1187 *T. Tasaka, M. Nagai, Y. Kubota, K. Sasaki, M. Murata, T. Taoka, K. Ikeda, T. Tanaka, J. Takahara and S. Irino*

Interleukin 4 potentiates the antiproliferative effect of 1α,25-dihydroxyvitamin D_3 on mouse monocytic leukemia cells but antagonizes the antiproliferative effects of interferonα,β and interleukin 6 — 1191 *T. Kasukabe, J. Okabe-Kado, Y. Honma and M. Hozumi*

CD10 antigen density in childhood common acute lymphoblastic leukaemia: comparisons of race and sex — 1197 *D. K. Glencross, F. Adam, J. Poole, R. Cohn, P. Becker, A. F. Fleming and B. V. Mendelow*

FcRIII (CD16) expression on neutrophils from chronic myeloid leukemia. A flow cytometric study — 1203 *G. Carulli, M. L. Gianfaldoni, A. Azzara', F. Papineschi, R. Vanacore, S. Minnucci, R. Testi and F. Ambrogi*
